## TORONTO AND MCGILL PLAY A DECISIVE GAME TO-NIGHT IN RACE FOR CHAMPIONSHIP

Both Teams are Trained to the minute and Confident of Success in Crucial Contest—Changes in Varsity Line-Up

**JACK MARSHALL WILL HOLD THE WHISTLE**

Feature Struggle of Local Amateur Hockey Season Takes Place To-night

The game in which McGill and Toronto come together for the second time this season promises to be one of the closest and most strenuous battles in which these two old rivals have ever participated. Both teams are trained to the minute and as the seven which loses will be out of the running for this year the encounter should be productive of some of the best hockey ever staged in an inter-collegiate fixture in Montreal. As a result of McGill's victory in the Queen City on Saturday the Toronto students received what was to them a surprise and in any case gave them a set back that it will be necessary for them to win every remaining game, including that of tonight, in order to have a chance for the championship. Consequently Capt. Basil Frith and his cohorts are imbued with a determination to avenge their last reverse and promise to make things interesting. Toronto people, including the sporting writers of the city, attribute the Red and White victory to luck and are unable to see McGill for a minute. However, it is not unlikely that when the smoke has cleared away after the game they will be able to revise their opinions. McGill are travelling at an awful clip and have improved considerably since last week. Ramsay Rankin who is always at his best when playing against Toronto, has completely recovered from his late illness and is showing the form which marked him as one of the greatest amateur players in Canada last year. Hughes is also going better than ever and these two, with Montgomery or Mann in the nets, should be able to look after the Varsity attack in the most approved style. The forwards are in perfect condition at present and can outskate the slower Blue Shirts so that unless something unlooked for happens they should smother their respective checks. Thompson and Wilson in centre ice are working together like a machine and never miss an opportunity to score, while Masson and Smith on the wings, are checking back and shooting like veterans and unless Varsity can produce a whole constellation of speed marvels before eight-fifteen this evening, McGill should be able to annex the game.

As usual the line-up of both teams is being closely guarded and will not be known until they take the ice but in all probability they will be much the same as last week. Toronto may make one or two changes with a view to infusing more speed into their forward line, but the Red and White line-up will probably remain intact.

The tickets which are on sale at the Students' Supply have been selling fast and indications point to one of the largest crowds in the history of the game at McGill.

Jack Marshall who gave satisfaction the last time these two teams met, will handle the whistle and he should be able to keep the game well in hand.

## BASKETBALL GAME AT Y.M.C.A. TO-DAY WILL BE A HUMMER

Varsity and McGill Clash at 5 O'clock this Afternoon

The Toronto basketball team arrive in the city this morning for their game this afternoon with McGill. Toronto despatches state that the blue and white quintette have had several hard practices this week in preparation for their game with the McGill team. Scott's ankle is much better and he will in all probability be seen in line this afternoon. He is a clever, tricky defence player and his presence should strengthen the Varsity line-up considerably.

With Scott playing, the Varsity team will be at their strongest. They are a fast, clever quintette and their combination and shooting are particularly good. Boddy and Brock both played on the team last year while Simpson and Thompson are newcomers who have had a great deal of experience on other teams.

The McGill team will in all probability present the same line-up as the one which put up such a hard, losing fight a week ago. On that occasion the team were handicapped by the strange floor and baskets but in spite of this fact they outscored the representatives of the blue and white in the second period of play.

On a home floor and with the support of a home crowd, the McGill team look good enough to come across with a win. They have had several strenuous practices in preparation for to-nights game and all the men are in tip top shape. Particular attention has been paid to the shooting and the team have improved immensely in this respect.

Messrs' Beecher and Armstrong will referee and this ensures the fact that the game will be a fast, clean one in every way.

## MEN OF PROMINENCE IN LEGAL CIRCLES TO ATTEND BANQUET

Hon. C.J. Doherty the Guest of Honor

The Law Dinner, which takes place to-morrow night, promises to be an unqualified success.

Judge Doherty will be the guest of honour. The guests will include Dean Mathieu, of the faculty of Law, Laval; Principal Peterson; Chief Justice Davidson; J. L. Archambault, Batonnier of the Bar; R. C. Smith; and McDermott, president of the Woodrow Wilson Club of Harvard, will represent his University.

Nearly all the tickets are sold and the dinner is expected to be a record one.

This annual fixture which has already gained such an enviable reputation for its excellence requires no eulogy here and it is understood that a large percentage of the law students in the University will take advantage of the opportunity of hearing such prominent men as the above. The dinner promises to be even a greater success this year than it ever has in the past.

Every way.

Every way.

### CONCERNING BOOKS AND KETTLES

The ranks of the undergraduates appear to offer a recruiting ground for book selling concerns in need of agents to peddle their products far and wide throughout the country. Every year posters appear on the walls of various college buildings; posters which hold out glowing inducements to the student willing to undertake the work of a canvasser or travelling agent.

It should be the duty of the college employment bureau to investigate and report on all such projects, before their advocates are permitted to use the college walls for advertising purposes. Since, however, this employment bureau has not seen fit to take any action in the matter we shall undertake to offer a few words of advice.

First, in this and all other similar, temporary positions, don't be in too great a hurry to sign a contract. The agent is always most anxious that this "great opportunity should not be missed, and that you should decide before his list is filled."

Secondly, be very careful to examine any contract that you may sign. Try to secure advice from someone who has been through the mill before you.

Third, and this is most important, take all the statements of past records with a grain of salt. The truth as a rule is told, but only part of the truth. You are told of the many who have made a great deal of money. But you are never told of the hundreds who sign a contract and cannot afford to stay and work it out. The percentage of successful canvassers is always reckoned from those who complete their contracts not from those who commence them.

Fourth, the fellow student who urges you to join him in this work is in all probability receiving a commission for this, and for the sales you will make. This will often explain his solicitude for your welfare.

There are decidedly two sides to the book-agents life, and as a rule only one side is told. In the past many McGill men have decided to spend their summers in this way. Some are successful, but, from the instances which have come under our notice, we are forced to say the majority have met with failure.

On the whole it is a gamble; no student can tell whether or not he can make money, and he is gambling with his summer's possibilities. Few students can afford to do this—hence our present attitude.

For all these reasons we would advise the prospective canvasser to correspond with the Daily office before signing his contract. We are in touch with many who have had experience and who will be pleased to answer all inquiries.

Books are alright in a library; kettles are necessary in a kitchen; but the sale of them on itinerant pilgrimages has many undesirable features connected with it. Before going into any new venture it is well to know both the desirable and undesirable features of the enterprise. Hence this editorial.

### CHEMICAL SOCIETY HEAR GOOD ADDRESS BY MR. V. K. KRIEBLE

Alcoholic Fermentation Treated in Masterly Manner

At a meeting of the Chemical Society held last evening, Mr. V. K. Kriebel presented a paper on "Alcoholic Fermentation." The introductory historical outline comprised the work of Stahl, Willis, Lavoisier, Liebig, Wohler and Pasteur. About 1835 yeast was shown to be an organized cell and concerned in alcoholic fermentation. This theory was vigorously opposed by Liebig and Wohler owing to their work in connection with disproving the vitalistic doctrine of organic chemistry which had prevailed up to this time. That the growth and multiplication of yeast occurred during fermentation was shown by Pasteur; and Buchner later proved yeast capable

of producing alcoholic fermentation; the fermenting power being completely destroyed at a temperature of 50-60 C.

Among the modern theories advanced is that of Harden of Lester Institute; claiming that phosphates are necessary for the fermentation of sugar. During such a fermentation after the carbon dioxide ceases to be evolved an enzyme causes the complex phosphate formed during the reaction to break down regenerating sugar and sodium acid phosphate.

Also according to the more recent theories lactic acid is produced followed by the splitting off of carbon dioxide, and the alcohol obtained. In fusel oil the presence of the amyl alcohols is accounted for by the presence in the mash of proteins which decompose into amino acids, which, in turn, yield the amyl alcohol.

After a vote of thanks to the lecturer the meeting adjourned....

The second team is coming along in fine style and they give the seniors a hard tussle in every practice. Wickson is a very fast man and tough as nails.

### LECTURE ON LOUVRE BY PROF. BIELER

Historical Club Hear Interesting Facts

A well attended meeting of the Historical Society was held last evening at the home of Prof. Bieler. The occasion was the Open Meeting of the Society and will long be remembered by all. Prof. Bieler delivered a most interesting illustrated lecture on the Louvre of Paris.

He traced the History of the famous palace from its very humble origin to the splendid appearance which it now has. The lecturer not only traced the architectural history of the building, but related many episodes of interest which had taken place in the building or in connection with its occupants.

At the close of the lecture a vote of thanks was unanimously passed to Prof. and Mrs. Bieler, and Prof. Bieler was elected an honorary member of the Society.

### SLIDE RULE SLIPS PRESENT ULTIMATUM

Opportunity at Last Presented to Arrange Games

Matters have come to a head in respect to the various daring hockey teams around here, such as the Bunsen Burners, The Slide Rule Slips, The First Floor Backs, and The Rectilinear Parallelopipedons, commonly known as the Blockheads (hence the name) and the Slide Rule Slips have taken it into their own hands and delivered an ultimatum to the effect that they will pursue any course that will eventually place them in bodily contact with all, taken in rotation, of the aggregations represented above.

To that end, if any of the managers of the other teams call in at the "Daily" office this afternoon between five and six, they will be immediately placed in contact with the officers of the apparently much-to-be-feared Slide Rule Slips.

All up! now, you would-be champs, for everything will be ready when you call, so don't forget, this afternoon, between five and six.

### THE RAILWAY CLUB WILL INSPECT THE GRAND TRUNK SHOPS

To-morrow's Visit to these  
Works Should Prove  
Instructive

Tomorrow afternoon, as was previously announced, the members of the Railway Club will pay a visit to the Grand Trunk Shops at Point St. Charles.

The Executive of the Club hope, in view of the fact of the interesting trips taken last year, that there will be a large turnout, for these Shops are certainly well worth a visit.

The men taking the trip are requested to be at Strathcona Hall tomorrow sharp at 2 p.m. so that an early start can be secured.

### ANNOUNCEMENTS

This afternoon on the Campus rink from 3-4 the two hockey teams representing Arts '15 and Arts '16 will clash in an Inter-Class game. The following men are requested to be there sharp on time to play for Arts '15. Clark, Abbott, Mahaffy, Gibb, Fraser, Rivard, N. Williamson, and Warriener.

There will be a meeting of Arts 1913 in room number 7 at 11-45 a.m. to-day. Business—election of valdiction and speaker to the banquet.

C. O. T. C.

Lieut. Caldwell will lecture in Room 54 Engineering Building, at 5 this afternoon. There will be a roll call and men present will be credited with one attendance.

LOST—A silver watch in the Engineering Building. It was left on desk 61, room 54 at 11.00 a.m. Finder please leave at janitor's office.

## CHANGES IN VARSITY TEAM ANNOUNCED IN A DESPATCH RECEIVED LATE LAST NIGHT

O. H. A. Team Defeated Intercollegiate Seven in a Fast  
Game on Wednesday, and, in Consequence, there has  
been a Shake Up

### STROME, WEBSTER AND PARKER WILL ALL PLAY

Blue and White Basketballs are Also in Good Trim for  
To-day's Game

(Special to McGill Daily)

Toronto, Jan. 30th.—The advance  
guard of the Toronto hockey team  
left for Montreal this morning and  
the rest of the team will follow to-  
night. All of the seven have gone  
with the exception of German, Han-  
ley and Strome.

The team have had two fast prac-  
tices this week. The second of these  
was a game between the Intercolle-  
giate and O.H.A. sevens.

This was a fast, hard, close check-  
ing contest and the Ontario Union  
representatives defeated the Intercol-  
legiate seven by a score of 5 to 1.  
Sinclair, Strome, Parker and Web-  
ster starred for the winners and, as  
a result they will in all probability  
be on the Blue and White line up in  
Montreal tomorrow night.

Strome and Parker have both played  
senior hockey before. Parker was  
in the nets last year for the Inter-  
collegiate seven and played a con-  
sistent game throughout the season.  
His performance in Wednesday's game  
was phenomenal and in consequence  
he will replace Laird in the nets.  
Sinclair has been playing splendid  
hockey all year. He displayed excel-  
lent form against St. Michael's cham-  
pionship team in last week's game,  
and his playing was even better yes-  
terday. He will be remembered by  
McGill men as one of the Blue and  
White's stellar football players. Cal-  
dwell and Jupp have also gone to  
Montreal.

Webster will replace Clarkson at  
rover. He has been playing splendid  
hockey all season, and his playing  
against the Boston A. A. in the  
game with the latter club on Var-  
sity's trip to the States was largely  
responsible for Toronto's decisive vic-  
tory.

The lineup of the Varsity team at  
the start of the evening's play will  
be: Goal, Parker; point, Hanley; co-  
ver, German; Rover, Webster; centre,  
Frith; right wing, Knight; left wing,  
Aird. Sinclair will however replace  
Knight and there is every possibility  
that Strome may replace one of the  
other men during the first half.

#### BASKETBALL.

The basketball team also leave to-  
night for Montreal. Gage will not  
go down as Scott's ankle is much  
better and he will be able to play  
tomorrow. The team had a very fast  
workout on Wednesday and are con-  
fident of success.

### KEEN COMPETITION IN ALL THE EVENTS OF THE TOURNAMENT

Boxing, Wrestling and Fen-  
cing Club Meet in Union  
Saturday Night

The Boxing, Wrestling and Fencing  
Championships to be decided on Sat-  
urday will be held in the Union. All  
entries must be sent in to the Sec-  
retary, care of McGill Union, any time  
to-day. The bouts are scheduled to  
start at 8 p.m., and competitors will  
weigh in any time after 12 o'clock  
noon, on Saturday. The rules gov-  
erning the competitions will be those  
of the Intercollegiate Union. Pewter  
cups will be given to all the winners  
of the thirteen contests, and an ex-  
tra prize to the best fencing novice.  
In the fencing all the competitors  
will fence one another, the winner be-  
ing the one who has least hits re-  
corded against him. The novice who  
has least hits recorded against him  
will be awarded the novice's cup.  
This should result in many entries  
from the beginners.

The exercise rooms and running  
track at the Drummond Street Y. M.  
C. A. have been in constant use by  
members of the McGill B. W. & F.  
Club for the last fortnight and the  
general form shown this season  
should be above that shown previous-  
ly, the men having trained very much  
more rigorously than ever before.  
In both the boxing and wrestling

### Varsity Must Win FROM MCGILL SAYS STUDENT NEWSPAPER

Toronto Confident of Winning  
To-night's Game

Apparently Varsity are not dis-  
couraged over their defeat of Satur-  
day and, in fact, are confident of  
turning the tables on McGill to-night.  
They realize that to lose this game  
would jeopardize what small chance  
they still have for the honors and  
are coming down with a determina-  
tion to win. In connection with this  
the following from "The Varsity,"  
the official undergraduate organ of  
Toronto University will be of inter-  
est:—

The result of the two games al-  
ready played in the Senior Intercol-  
legiate hockey series might justify  
the "dopester" in predicting a cham-  
pionship for Queen's this year. Such  
a prediction, however, looking at the  
situation from an unbiased stand-  
point, will be far removed from the  
final result. In the first game of the  
series, Queen's defeated McGill in  
Montreal by a score of 3-2. Now  
McGill is conceded to be a very  
strong team, extremely hard to beat  
on their own ice, and those who are  
in a position to judge say the vic-  
tory over McGill was more in the na-  
ture of good luck than in good play-  
ing.

Following this defeat at home, Mc-  
Gill takes a trip to Toronto, and, to  
the surprise of themselves and Var-  
sity, return as victors. But the hoc-  
key enthusiasts of Varsity are by no  
means satisfied with the result of the  
game; Varsity deserved to win, she  
had seventy-five per cent. of the play,  
but luck was against her. One is apt  
to put too much stress on the ex-  
pression "hard luck" in the event of  
a defeat, but those who saw the game  
could not help but feel that the se-  
cret of Varsity's defeat lay in that  
expression.

On Friday evening Captain Frith  
and his stalwarts will endeavor to  
turn the tables at McGill. Confidence  
in their ability to win is expressed by  
all associated with the team. Var-  
sity has to win, the players know it,  
and hopes for victory are high. To  
land the championship Varsity must  
win her three remaining games, and  
with two of these away from home,  
has indeed a hard problem to face.

there will be some hard bouts. The  
125 pounds wrestling will be very  
keenly contested, both Davies and  
Audette being in that class. The for-  
mer still has six rounds to take off  
to bring himself below the 125 mark,  
but should manage it. Hugh Jones  
and Crosley in the 158 pounds class  
should provide an interesting bout.  
Both have had to do a lot of hard  
work to make the weight. Hugh  
Jones having come down from 166  
and Crosley from 182, so they should  
be in good condition. Forbes will  
give an exhibition bout with Instruc-  
tor Cleaver, no one else having en-  
tered the 125 pound class to date.  
Mais will meet Cooper if the latter  
makes the required weight and the  
pair should put up a very good fight.

There will be a light-heavyweight  
class in the wrestling, in addition to  
the catch-weights. This has become  
necessary through Pennsylvania Uni-  
versity, whom the wrestlers are to  
meet on February 8th, having re-  
quested the substitution of this  
weight for the 115 pound class. Mc-  
Gill have two good men eligible for  
this class, namely Mercer and Routh-  
waite, though the latter may have a  
little difficulty in making the weight.

The revision of the rules governing  
the judging of the Intercollegiate  
boxing competitions is under discus-  
sion. The McGill executive have for-  
mulated some rules changing the num-  
ber of judges from two to three.  
These have been submitted to Queens  
and Toronto for their approval, the  
former having already accepted the  
new arrangement.

Great preparations are being made  
for the Boxing, Wrestling and Fen-  
cing tournament to be held tomorrow  
evening in the Union. The B. W. and  
F. Club have been working hard and  
the talent which they have to bring  
forward tomorrow night is very prom-  
ising.

Basil Frith has often been spoken  
of as the best player in the Intercol-  
legiate Hockey League, but after last  
Saturday's game there were many  
people who were quite ready to say  
that there were several men on the  
McGill team who were head and  
shoulders above the Varsity captain.

## Phone Uptown 330

Dear Sir or Madam:—

Handling enormous quantities of Fresh Cut Flowers  
daily I am in a position to take on a limited number of  
steady customers to whom we will deliver twice every week,  
a CHOICE BOX of FRESH CUT FLOWERS, (my selection)  
meaning whatever I have a surplus of—including the greens  
that are necessary to make a bouquet tasty, to any address  
in the city for \$1.50 per week. A trial order of a week or  
two will convince you of this special inducement. Flowers  
will be delivered at any time twice a week. The cheapest  
place in town to buy Cut Flowers, Floral Designs, etc.

Think of it, for \$1.50 per week two boxes of fresh cut  
flowers—consisting of the Season's newest and freshest flow-  
ers—Roses, Violets, Bulbous and other flowers, Carnations,  
Orchids, etc.

## SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made by any agency, on certain conditions by father, mother, son, daughter, brother or sister of an existing homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along the homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

## Maxims For Students of Engineering

Another reason why an engineer cannot wisely make his reading of too limited scope lies in the fact that in all construction work the engineer is constantly working himself out of a job, and every change presents new problems of its own for solution. You will readily understand, therefore, why the question of a too voluminous engineering literature cannot be disposed of simply by saying that each engineer shall read the literature of his own special branch. If he is wise and ambitious, he will read that and much more.—Frost.

The manager of a large company in the Middle West told me recently

## A COON ORCHESTRA TO DELIGHT DINERS AT ARTS BANQUET

R. C. Smith will be Guest of Evening

The Arts Undergraduate Society will hold its Annual Banquet on Wednesday, February the twelfth at the Canada Club in the Board of Trade building. All signs point to the fact that this will be the best banquet ever held by the Undergrad Society as the Executive have made every effort possible to ensure its success.

Mr. R. C. Smith, K. C., will be the guest of the evening and will speak to the diners; as also will Dr. Leacock. It is hoped that Principal Peterson and Dean Moyses will also grace the festive board with their presence.

The room will be decorated for the occasion and flowers will adorn all the tables. These will be separate. Smokes and drinks will be provided free of charge at the banquet.

A feature of the celebration will be the soft strains of music provided by the Club's orchestra. This orchestra is composed of coons. The price of the tickets will be two dollars and a half.

## POLO IS POPULAR WITH THE SWIMMERS AT TORONTO UNIV.

Swimming Team is not Over Strong

(Special to The Daily).

Toronto, Jan. 30th.—Keener interest than ever before is being displayed in the approaching swimming meet between McGill and Toronto. The water polo game is causing particular excitement and Varsity's chances appear brighter than ever in the past. The squad hold daily practices and are fast rounding into condition. In all probability the team to represent Varsity against McGill will be picked from the following men:—Tilson, Riddell, Quail, Vallance, Toote, Scott, Davidson, Simpson, Jones, Willows and Cowgig.

The Inter-faculty polo games are also adding greatly to the growing popularity of the sport. In a semi-final game yesterday, Victoria defeated the School of Practical Science team by a score of 3-2. Willows, who starred for the Vics, scored the deciding goal just a moment before the whistle blew.

The final in the series is to be played tomorrow between the Vics and Arts, and promises to be an excellent game.

The prospects of the swimming team are far from bright, especially in view of the fact that the McGill team is one of the finest on the continent. Simpson, Tilson and the two Tootes are the pick of the candidates although Shive is also good.

that in filling positions with college graduates he always give preference to those who have been prominent in students' activities. "It does not matter," said he, "whether the man distinguished himself in athletics, in politics, or in literary activity. It simply means that he is a man of strong will and initiative, a man who can be relied upon to achieve results, without an external pressure." —Karapetoff—

It is my constant observation of four engineering works, employing about 20,000 men, that engineers reach the limit of their usefulness from defects of character, rather than from want of technical attainments. Our greatest difficulty is to find courage, candor, imagination, large vision, and high ambition. I do not know which of these qualities is most often lacking, or which is most essential. The lack of courage and candor comes most often to my notice,

## ROOTER'S SONGS FOR TO-NIGHT WERE REHEARSED YESTERDAY AND ARE PUBLISHED BELOW

A Good Practice was Held Yesterday and there will be Another Big One this Afternoon at Five O'clock

## CHEER LEADER WATEROUS HAS A NEW YELL

Football Hero Achieves Instantaneous Success as Chief Noise Producer

A very successful practice of the Rooters' Club, under the direction of "Tooley" Waterous and Gordon Darling, was held yesterday afternoon in the Strathcona Hall. Quite a good crowd turned out, and if yesterday's practice was any criterion of their yelling powers, tonight they ought to be heard out in Lachine. All the old favorites, including "Everybody's Doing It" and "We've Got You" were rehearsed with much gusto, while "Tooley" has a new yell of his own that has everything beaten. The big lineman is indeed an able successor to Bill Hughes and has a voice that would make a rattling gun look sick. An effort will be made to have the band in attendance, which has always proved to be such a tower of strength to the Club in the past.

There is to be a final practice this afternoon in Strathcona Hall and it is expected that every man who possibly can do so will turn out and help the McGill land the championship. There is nothing that helps the players as much as the rooting, and remember, rooters, you are going to get good seats at the smallest possible price, and are going to see one of the best games of the year. The following are some of the songs:—

(Tune of "Marching Thro' Georgia")  
Now our team is out for gore and they'll hand it out galore,  
And determined that they'll win or die today,  
See those fellows sure and strong, ready all the line along,  
Varsity will have to break and fade away.

Chorus:  
Cheer, then cheer, for Old McGill, boys;  
Raise your voices in a song,  
We must beat the Blue and White for we're out to win tonight,  
And the team in Red and White'll move along.

(Tune, "Everybody's Doing It").  
Honey, honey, don't you hear,  
Hear those fellows give the cheer,  
That's the Rooters' Band  
Up there in the stand;  
Hear them yell for McGill—Rah!  
Hon! Hon! Hon! Hon! Ain't it fine,  
See McGill gains all the time;  
Puck is put in play;  
Down the ice they sway,  
That's how the scoring is done.

but the lack of imagination and of broad outlook produces the most serious disasters. All of these things an engineer must have if he is to go far, and all of these any citizen must have if he is to go far in the work of life.—Proust.

The qualifications demanded of engineers in all the extended fields of engineering work are vastly more complicated than in the early days of those engineers who have not yet reached even middle life. It is no longer sufficient that a civil engineer—a mechanical engineer, an electrical engineer, or a mining engineer and a metallurgist should possess just that amount of technical knowledge which will enable him to discharge the duties of any position which he may hold, purely as an engineer. He has, or may become not only an expert technical man, but also the controlling personality in many wide fields of professional work in which it is not only his duty to direct purely professional operations, but also to conserve varied interests depending upon those operations in such a manner as to secure the efficiency and success of an organization. In the discharge of these general or administrative duties, he loses in no sense his professional character, but he rather preserves it in a higher capacity and adds to it certain broad qualifications which can be best developed through his liberal education. It has become, therefore, almost or quite imperative that his educational training purely as an engineer should be preceded by the prior training of a college education.—Burr.

Chorus:  
Everybody's doin' it, doin' it, doin' it,  
Everybody gains a bit, gains a bit, gains a bit.  
Just watch that couple over there,  
Whistle blows, then through the line they tear,  
Poor Old Varsity are in despair—  
Hear 'em swear, hear 'em swear, hear 'em swear—wow—  
Everybody's doin' it, doin' it, doin' it;  
Everybody gains a bit, gains a bit, gains a bit;  
See that line there bustin' apart,  
Just as soon as ever we start  
How that sight does touch my heart,  
Everybody's gains a bit now.

You want to be, you want to be,  
You want to be in Old McGill boys,  
Where the Red and White are in the fight,  
Morning, afternoon and night;  
You want to see, you want to see,  
You want to see our team rip through them,  
You can tell the world that cup comes to  
M-C-G—well we all know how to spell it—  
For we're going, you bet we're going  
Yes we're going to win today.

We've got you, we've got you,  
We've got you Varsity;  
We shout and fight for the Red and White and honour of M-C-G.  
Ereplay, Ereplay, Ereplay, Rapady, Re;  
We've got you, we've got you, we've got you Varsity.

(To tune of "Tammany").

James McGill! James McGill!  
Peacefully he slumbers there,  
Blissful though we're on a tear.  
James McGill! James McGill!  
He's our father, well, yes, rather,  
James McGill!

("What's the Matter With Father.")  
What's the matter with Rankin, he's all right;  
What's the matter with our team, they're all right;  
Now all you fellows from Old McGill  
Cheer that team till their hearts do thrill!  
What's the matter with Old McGill, she's all right!

## LECTURE BY PROF. KEMP

During the last 3 days we have been honoured by the presence of Prof. J. F. Kemp, D. Sc., Head of the Department of Geology at Columbia University. Dr. Kemp, who is a world-wide authority on Economic Geology, delivered lectures to the Senior classes of Mining and Geology on "Ground waters and Theories respecting them" and also on "Faults in their relation to ore deposits." His lectures were much appreciated by large audiences, and judging from his gratifying statement that "The McGill habit was growing on him" he has enjoyed his stay. It is regrettable that Dr. Kemp could not remain to see on Friday night how McGill compares with Columbia at hockey.

Both McGill and R.M.C. have practically the same teams this year as last season. The Cadets have to find a new centre man whereas McGill had to discover a new goal-keeper.

Box, the centre man on the Queens team has been laid up and may not be able to play again this year. Box has been playing on the team for several seasons and is one of the best men on the tricolor forward line.

The position of goal-keeper for tonight's game is still doubtful as both Montgomery and Mann are playing a sensational game in the nets. Montgomery played a brilliant game in Toronto and was greatly praised for his clever work.

**Rooter's Tickets for the Varsity -- McGill Game will be on sale at the Supply Room and Hall Porter's Stand in the Union for 35c till Friday Evening at Five o'clock. All Tickets not purchased by that time will be sold for 50 cents at the Rink. Rooters this means YOU.**

## SUCCESSFUL CONCERT AT CONSERVATORIUM

Good Programme Rendered Before Large Audience

Last night the first Students' Recital was held in the Conservatorium Hall and proved a great success.

The hall was filled to overflowing, and no doubt the rather small size of the place prevented a larger number being present, for the music students are increasing all the time and their none too frequent recitals are appreciated and thoroughly enjoyed—as was the case last night—by those present.

All the pupils, irrespective of their age, showed a splendid efficiency; the different numbers were splendidly chosen, and better rendered. The McGill Conservatorium of Music is certainly doing a great deal towards the advancement of music here in Montreal. The programme was as follows:

Pianoforte Solo, Elfenpiel, Schyde  
Miss A. Kuhns.  
Violin Solo - - - - - Dancel  
Aria & Variations.  
Miss R. Koffman.  
Pianoforte Solo, Valse, Borowski  
Miss Hollis Curtin  
Violin Solo (a) Aria Tenaglia  
(b) Bourree Handel  
Miss Leslie Taylor

Pianoforte Solo - - - Rachmaninoff  
Prelude in C sharp Minor  
Miss Mary Marks  
Songs - - - - - Wiegand - - - Ries  
Ho ro my nut brown maiden.  
(Old Highland Melody).  
Miss E. R. Wilson  
Violin Solo - - - - - Seitz  
Concerto (op. 31) 1st Movement.  
Miss Irene Pena  
Pianoforte Solo - - - Macdowell  
Witches' Dance  
Miss D. English  
Organ Solo - - - - - J. S. Bach  
Prelude and Fugue in C Minor.  
Miss K. MacKenzie.  
Song O del mio dolce - Gluck  
Miss E. L. Rollins.  
Pianoforte Solo - - - Schubert  
Impromptu in E flat.  
Miss Sybil Youngheart.  
Violin Solo - - - - - Viotti  
Concerto No. 23 (1st Movement)  
Miss Naomi English.  
Pianoforte Solo - - - Rheinhold  
Impromptu.  
Miss D. Rothschild  
Songs - - - - - Danizetti  
Ballad from Linda di Chamounix  
Will o' the Wisp - Spross  
Miss E. Goldstein.  
Violin Solo - - - - - DeBeriot  
Concerto No. 9 (1st part).  
Mr. H. Casey.

Ottawa College is quite holding its own in the Interprovincial as the University team has beaten both the other teams in the league and only lost one.
